

Figure 1 is a perspective view of a medical device 10. The device includes a handle 12 with a trigger 14 and a button 30. A cable 16 is connected to the handle. A shaft 18 extends from the handle, ending in a probe 22 with a tip 24. A circular component 36 is shown below the handle, with a cable 37 connected to it. A component 50 is also shown connected to the cable 37. A dashed line A-A indicates a cross-sectional view.
